THE NORMAN COURT
POWER IN LAYERS — I

STACKABLE PANELS Every parchment contracts to its own copy; the column then repacks automatically with a true one-millimetre rhythm.

"INLINE HERALDRY" Reserve one typographic space for . Two independent layers share the same hole and baseline.

ONE TEMPLATE Nine records become nine finished cards. Change the CSV—not the drawing.

THE FRENCH RETINUE
RICH TEXT / SIMPLE DATA — II

RICH SVG TEXT A cell can combine **bold** *italic* and **"custom colour"** through real editable tspans.

"MULTI-ICON SLOT" A crown and seal can overlap inside the sentence without manual coordinates.

REDUCTION READY Keep typography consistent while every record carries different content.

THE GERMAN GUARD
ARRAYS AS COMPOSITION — III

HORIZONTAL ARRAYS Lay out shields in one row, distribute them precisely and anchor the result as one object.

"VERTICAL ARRAYS" The side rail is the same mechanism in a 1×3 layout. Individual items may still rotate or scale.

NESTED CONTROL Compose locally first; Fit Anchor then places the complete heraldic unit.

THE ENGLISH HOUSE
ART THROUGH A WINDOW — IV

CROPPED ART Wikimedia artwork fills a fixed window with cover-style cropping while the ornamental foreground remains untouched.

"REMOTE ART" Combine Commons imagery with reusable symbols embedded in the template.

EDITABLE SVG The output remains inspectable vector artwork—not a flattened mock-up.

THE COURT OF FRANCE
MEASURED DECORATORS — V

SPAN DECORATORS The ruby stroke measures only this phrase, then grows to match its real rendered width.

FRONT LAYER Decorations can sit behind the type or cross it in front like ink, foil or a translucent marker.

"REAL GEOMETRY" Inkscape supplies the exact span position once; PnPInk builds the path automatically.

THE IMPERIAL ENVOYS
CONTENT DEFINES HEIGHT — VI

NO FIXED HEIGHT Short text creates a short panel.

"LONGER COPY REFLOWS" Add another sentence and the parchment grows only as much as needed. Neighbouring panels move, maintaining the

EMPTY MEANS GONE Leave a field blank and its private frame disappears from the final stack.

THE ITALIAN LEGATION
TRANSFORM EACH DETAIL — VII

FIT · ANCHOR · TRANSFORM Scale, crop, align, rotate and offset each component with compact notation in the dataset.

"CONTROL THE LAYERS" Place together, yet transform either one independently inside the shared slot.

COMPOSITION FIRST Arrays behave as one visual unit when anchored to their placeholder.

THE FLORENTINE COURT
ONE DRAWING / MANY WORLDS — VIII

VARIABLE DATA PUBLISHING Connect a CSV or Google Sheet and turn rows into a coherent deck, event badge set or personalised print run.

"DESIGNER FRIENDLY" Draw placeholders in Inkscape. Name them once. Then describe variations using readable cells and snippets.

MASSIVE OUTPUT Produce hundreds of unique pages without duplicating the design by hand.

THE IBERIAN CROWN
THE COMPLETE CODEX — IX

THE WHOLE SYSTEM Dynamic frames, rich tspans, measured decorators, remote art and reusable assets live in one ordinary SVG template.

"FAST ITERATION" Edit a line, press Generate and review a complete sheet. The warm measurement engine handles inline.

MAKE IT YOURS Replace the art and copy; retain the production logic and visual consistency.
